

IGN Stock Centre

These plasmids will most likely be soon available from the IGN Stock Center. Please provide further details and send further plasmids! We will all profit and save a lot of money!

Plasmids for <i>E. coli</i>						Internal Information		
Name	Description	Link	Source	Contributor (not yet received)	Remarks	Stock established, Stock filled up (Date)	Stock checked by (PCR, Sequencing, Restriction ...), Date	Sent to: Name, Institution, date
pSBC13	requires further details		iGEM					
pGEM	requires further details		Promega					
pJET	An excellent blunt-end cloning vector but you have to buy the linearized plasmid as a kit!	http://www.bioinfo.pt.e.hu/f2/pict_f2/pJETmap.pdf	Fermentas		not in stock!			
pBI121	Binary Agrobacterium vector with a GUS reporter gene for plant transformation.	http://www.snapgene.com/resources/plasmid_files/plant_vectors/pBI121/ , https://www.addgene.org/vector-database/1913/	Arabidopsis Biological Resource Center	Siti/Ari				
pGlo	Good plasmid for courses to demonstrate transformation of GFP and to purify GFP, requires further details		BioRad?	Kartika				
pBTM	requires further details			Yekti				
pBST	requires further details			Yekti				
pVP	requires further details			Yekti
